RPG LIFE SCIENCES LIMITED

ADVOCACY POLICY

RPG Life Sciences Limited ("the Company") believes in representing and engaging with the authorities on matters concerning the development of the sector and country it operates in. It also believes that effective advocacy conducted in an ethical and transparent manner will contribute to and serve the best interests of its diverse stakeholders.

Policy Framework

The Company aims to engage in policy advocacy within the following framework:

- Advocate for and support stakeholder consultation and interaction in areas such as governance and administration, taxation, sustainability, economic development, and sector development, with the goal of influencing policy, regulations, and other decision-making activities.
- Engage responsibly with the government, policymakers, regulators, chambers of commerce, industry associations, and other stakeholders in a constructive manner to promote areas identified for advocacy.
- Ensure that the stance taken during policy advocacy promotes fair competition and respects the rights and interests of all the stakeholders.
- Exhibit professionalism, honesty, integrity, openness, and transparency during policy advocacy.
- Maintain a high standard of ethics and comply with all applicable laws and regulations.
- Provide regulators and policymakers with fact-based information, knowledge, and expertise.
- Devise a grievance redressal mechanism to support the investigation of any instance of non-compliance with this policy.
